Halal and food-safety controls

- Only registered products suitable for food premises may be used; product labels and safety data sheets are retained.
- No treatment is applied to exposed food, food-contact surfaces, utensils, or open ingredients.
- Food and movable equipment are protected or removed before treatment; the area is released only after cleaning and inspection.
- Any bait or treatment material with doubtful origin must be declared and approved by the halal person-in-charge before use.
- Provider personnel sign the visitor and service logs and report any infestation, dead pest, contamination risk, or proofing defect.

Responsibilities

Provider	Client
Perform scheduled inspections; maintain device map; issue reports; notify urgent risks; use approved materials.	Provide access; protect food; complete housekeeping actions; retain reports; verify closure with halal lead.
